Why should your company use EasyCargo?

EasyCargo will help you maximize the utilization of your cargo space loading area. Just insert the quantity and dimensions of items or pallets and let EasyCargo do the job for you. Within one minute, your load plan is ready. Now you only decide if you want to add more items or maybe use a smaller truck or container.

Items can be divided into groups based on their final destination. On top of that, if you enter the weight values of loaded items, EasyCargo will help you clearly recognize used cargo space area. Why pay for a semitrailer or 40ft container when a smaller one is enough? Space is money, use EasyCargo!
